

Multimedia in PaperClipPlus™

# PaperClipPlus™

- PaperClipPlus.com is software-as-a-service (SaaS) – a server in the ‘Cloud’ that stores your files.
  - PaperClipPlus™ makes your files available to you on any device that supports a Web browser
  - You can share your files with just who you want – and you’ll be able to see if they got them
  - PaperClipPlus™ is for any kind of file – invoices, binaries, presentations, and multimedia

# Multimedia in PaperClipPlus™

- You can store, view, play, and share your media files in the cloud using PaperClipPlus.com
- Multimedia files (audio, video, images) can be stored in PaperClipPlus™ and shared just like any other PaperClipPlus™ files
- PaperClipPlus™ works with your browser and client operating system to ‘play’ or ‘show’ media
- *This presentation* covers PaperClipPlus™ features that make multimedia in the Cloud easy for you to use and for you to share

# PaperClipPlus™ Basics

- If you have just received a link to a PaperClipPlus™ file and don't know what to do, read
  - [“I've received an e-mail about files at PaperClipPlus”](#)
- New users of PaperClipPlus.com should start with
  - [“Getting Started with PaperClipPlus”](#)
- To learn how to keep your files organized, read
  - [“Managing My Files in PaperClipPlus”](#)
- For more help with PaperClipPlus™ Filesets, check out
  - [“PaperClipPlus Filesets”](#)
- See how to precisely control access to your files in
  - [“Using Authorization Strings with PaperClipPlus”](#)

This PaperClipPlus user has uploaded several media files – audio, video, and images – and created a fileset to view and share them as a group.

When the user clicks anywhere on the fileset row, PaperClipPlus displays the fileset's details. The user can share the fileset or click on the 'Share URL' to view it themselves.

# PaperClipPlus™ Slide Shows

- Slide shows display all the images in the fileset and cycle continuously until the show is closed.
- At any time, the user can pause the slide show by hovering over an image – or the user can download the image that is displayed by clicking on it.
- The left and right arrows move manually through the fileset images.

Back on the View fileset, each file has 'View File' and 'Download File' icons. For media files, these links work with your browser setting to view the files in a browser window or in a helper application launched by your operating system. PaperClipPlus makes it possible to do a complete multimedia presentation from this view.

Both the music player and the video player were launched from PaperClipPlus running in the browser
